

## **Possibilities and Solutions of International Reimbursements**

**Václav Janalík**

Czech Centre for International Reimbursements (CMU), Prague, the Czech Republic

The presentation will contain information concerning basic rules of social security coordination within and between EU countries, e.g. the regulation 1408/71 and 574/72, and add general information about institutions involved at EU and national level. Particular rules for providing healthcare in case of temporary stay in another than a competent EU country, for providing healthcare in case of residence in another than a competent EU country, and providing scheduled treatment abroad will be presented. The second part of the presentation contains information concerning ECJ judgments in relation to scheduled treatment, reimbursement procedure between EU countries, and forms used for coordination purposes.
